

# Folding is fun!

*"Sense of stability and order are essential if you are to create a space where your things can relax." – MARIE KONDO*

## MASTERING THE KONMARI FOLDING TECHNIQUE

- ✧ Only fold clothes that "spark joy." Discard, donate or sell everything else with a "thank you" to appreciate its service
- ✧ Handle your clothing with respect and claim ownership by removing tags, packaging, and labels
- ✧ Use the palms of your hands to smooth and pull clothes taut, check for stains/flaws, and transfer positive energy
- ✧ Adjust the number of folds required based on the length/thickness of an item and the drawer's height/depth
- ✧ Stand items upright and on edge in your drawer (like book spines) and arrange them in color order (dark to light)
- ✧ Hang items that look happier when hung (coats, suits, jackets, skirts, dresses, soft materials)
